PRIVATE EDUCATION

Your face is the curriculum.

This is not a one-size-fits-all makeup class. Your lesson is built around your skin, your features, your products, your comfort level and the way you actually want to look.

*You do not need more makeup.
You need to understand what works - and why.*

WHAT WE CAN WORK ON

- Skin prep, complexion, concealing and powder placement
- Brows, eye shape, lashes, blush, bronzer and lips
- Product editing: what stays, what goes and what is worth buying
- Everyday, evening and camera-ready makeup
- Technique that is customized instead of trend-driven
